

IMPACTFUL PARTNERSHIPS GUATEMALA

DIGITAL LITERACY TRAININGS FOR GIRLS IN GUATEMALA

- In Guatemala, Pro Mujer is addressing the digital gender divide by leveraging local partnerships with Sheva and SERES to provide mobile training opportunities in digital literacy and connectivity for girls in 2019. Through Sheva's "Connected Training," designed for use by women and girls, we will celebrate International Girls Day in ITC and our participation in the EQUALS Global Partnership and train up to 40 girls (ages 14 -17) in Tecpán, Guatemala over two sessions in April of 2019.
- By leveraging alignment, resources, and expertise, this partnership will equip girls in Guatemala with new digital abilities and broaden their mastery of smartphones and mobile apps to help them grow as young women and leaders in their communities.

ALAS SEXUAL AND REPRODUCTIVE HEALTH CAMPAIGNS

- In partnership with ALAS Guatemala, Pro Mujer and its partners, Wakami and SERES, will host ALAS' Sexual and Reproductive Health Campaigns in community centers in Tecpán and Patulul, Guatemala.
- At least four campaigns will be held through the course of 2019, allowing community members to have the opportunity to receive sexual education workshops and gain access to a wide range of contraceptive options for both men and women.
